Zavier is a friendly, polite, and energetic teenager who enjoys music, exercise, and outdoor adventures. He loves listening to and creating music and is eager to travel and experience new things. Zavier hopes to further his education and pursue a career as an architect or engineer. Easy to talk to, he values meaningful relationships and enjoys connecting with people he trusts.

Zavier hopes to join a loving two-parent family and would enjoy having a brother. He is open to pets, especially cats, and would like to live in a country setting. An active, open-minded family would be a great fit as he looks forward to building lasting, healthy relationships in a forever home.
